**813-513-7447**

**12780 Race Track Rd,  
Suite 200 E, Tampa, FL 33626**

## QA TECH STACK

**Main technology stack is Scala based. Have a good grasp of Scala ecosystem:**

Play Framework, Akka Actors, Akka Streams, Akka Http, ScalaTest, Slick, SBT, Spark.

Main specialization is automation of web tests of any complexity, including integration of different systems and interaction between them.

**Other practical skills engaged in automated QA process:** Linux OS and command line, AWS services (EC2, SES, S3, Route53), CI Tools like Jenkins, MySQL, MongoDB, Aerospike, Selenium WebDriver, HTML, CSS, Bootstrap, JUnit, Git.

## DEVOPS TECH STACK

- Amazon/DigitalOcean hosting administration, Installations/Deployments/Upgrading, Monitoring
- Linux systems administration
- Databases administration
- Ansible/Bash scripts for automated processes

### Servers:

- Apache
- Nginx
- Wildfly
- Tomcat

## CONTENT CREATION AND DESIGN

- Web Design
- Engaging Content Creation
- Custom WordPress themes
- Custom static website templates.
- Videography
- Photography
- Print Graphics
- Graphic Design
- UI/UX Design

## APPLICATION PROFICIENCY

### Full Adobe Suite:

- Photoshop
- Illustrator
- Audition
- Premiere Pro
- Acrobat
- Media Encoder
- After Effects

### 3D Animation:

- Maya (Auto Desk)

## HOSTING MANAGEMENT AND SERVER ADMINISTRATION

- AWS
- Google Cloud
- DigitalOcean
- Linode
- VPS
- Dedicated Servers
